

European Industrial Placement Opportunities

Cooper Industries Ltd.

Excellent benefits + International placements

Cooper Industries, a global manufacturer with 2007 revenues of \$5.9Bn with administrative headquarters in Houston USA, devotes substantial resources to the recruitment and ongoing development of graduates from the best colleges and universities around the world.

Our industrial placements, both six and twelve months are structured around projects suitable to your specific degree programme. At the same time we will prepare you for future leadership opportunities by offering the chance to learn through hands-on experience and professional training, qualification and in-house company workshops.

If you aspire to become a future leader in a global manufacturing business and are working towards a technical degree, ideally in mechanical or electrical engineering or a combined degree in business or marketing, we would welcome your application on our Industrial Placement Scheme.

In return we will offer you excellent experience and the chance to work towards a place on our two year graduate scheme.

To apply, email your CV with covering letter to europiangrads@cooperindustries.com

Applicants must be aware this is an international programme and consideration will only be given to applicants prepared to travel and take international placements.
