

The support you rely on.

Improving efficiency during installation with maximum return on investment.

An application is only as strong as its support systems. It's not only important to have reliable power, but determining how that power is distributed – whether in commercial, industrial or data center applications – is critical for efficiency. We continue to be the brand for systems that effectively protect, connect and enclose engineered facility subsystems, keeping your processes running and costs down. From cable tray systems and strut systems to spring steel fastener solutions, the B-Line series business is focused on innovative solutions.

Within this Spring Steel Fastener catalog, you will find several innovative, time-saving solutions that help drive your bottom line. Below are just a few of our most recent innovative additions.

- BB2T Series telescoping box mounting bracket with increased rigidity, new box mounting depths and accessories. For more information, visit www.eaton.com/BB2.
- J-Hook color ID system that help verify cables are running in their correct, designated pathways. For more information, visit www.cooperbline.com/color-id.
- BB8 Series box mounting bracket with integrated cable containment for lower installed costs. For more information, visit www.cooperbline.com/BB816.
- Rapid Ring™ self-adjusting pre-fab ring that installs in as little as 15 seconds. For more information, visit www.cooperbline.com/rapidring.
- KwikWire™ hanging system and accessories that help save time during installation. For more information, visit www.cooperbline.com/kwikwire.

Ruff-IN™ product offering continues to expand with product and assembly options. For the latest additions, visit: www.cooperblin.com/ruff-in

Basic Ruff-IN™

"I own a pre-fab shop, and I need high-quality, innovative components that will keep me versatile for my customers' projects."

Whether you run your own pre-fab shop or simply want maximum project control, Basic Ruff-IN can provide a profitable pre-fab solution that perfectly suits your operation. Keep control of your project, keep your crew working and garner the cost- and time-saving benefits of pre-fab with Basic Ruff-IN assemblies.

Advantages

- Innovative, versatile designs that minimize the number of SKUs required to stock
- Many toolless installation products
- UL Listed assemblies

Offerings

- Brackets
- Boxes
- Mud rings
- Ground wire

Box Support Bracket

Interlocking wrap around design provides extra rigidity.

Telescoping Box Mounting Bracket

Fully adjustable support bracket.

Experience the competitive edge of Ruff-IN pre-fab assemblies. Speak with one of our consultants or visit www.cooperblineline.com/ruff-in to download our Ruff-IN catalog.
