Eaton and Cooper united.
Energizing a world that demands more.

Discover today’s Eaton.

Powering business worldwide
As a global diversified power management company, we help customers worldwide manage the power needed for buildings, aircraft, trucks, cars, machinery and businesses.

Eaton’s innovative technologies help customers manage electrical, hydraulic and mechanical power more reliably, efficiently, safely and sustainably.
We deliver:

- **Electrical solutions** that use less energy, improve power reliability and make the places we live and work safer and more comfortable.

- **Hydraulic and electrical solutions** that enable machines to deliver more productivity without wasting power.

- **Aerospace solutions** that make aircraft lighter, safer and less costly to operate, and help airports operate more efficiently.

- **Vehicle drivetrain and powertrain solutions** that deliver more power to cars, trucks and buses, while reducing fuel consumption and emissions.

We provide integrated solutions that help make energy, in all its forms, more practical and accessible.

With 2012 sales of $16.3 billion, Eaton has approximately 103,000 employees around the world and sells products in more than 175 countries.

**Eaton’s electrical business**

**Eaton is a global leader with expertise in:**

- Power distribution and circuit protection
- Backup power protection
- Solutions for harsh and hazardous environments
- Lighting and security
- Structural solutions and wiring devices
- Control and automation
- Engineering services

Eaton is positioned through its global solutions to answer today’s most critical electrical power management challenges. With 100 years of electrical experience behind us, we’re energized by the challenge of powering up a world that demands twice as much energy as today. We’re anticipating needs, engineering products, and creating solutions to energize our markets today and in the future.

We are dedicated to ensuring that reliable, efficient and safe power is available when it’s needed most.

B-Line is a leading manufacturer and fabricator of metal products used in the support of pipe and equipment for industrial, residential, commercial, utility, and OEM installations. B-Line is proud of the exacting standards of research, design, engineering, and manufacturing that go into each and every product that comprise our pipe hanger product line. Our customers have access to the most complete support systems offered in the industry, including pipe hangers, metal framing, cable tray, slotted angle, seismic bracing, fasteners, telecom, enclosures and anchors.

Many of B-Line’s products are listed by Underwriters' Laboratories, Inc. and FM Global approved for fire sprinkler system installations. All B-Line products are manufactured to meet or exceed industry standards set for their design and manufacture.

B-Line products are produced in five modern plants consisting of over 1,000,000 square feet. These facilities are located in Highland, Illinois; Troy, Illinois; Reno, Nevada; Corona, California and Sherman, Texas. Regional sales and distribution centers are located throughout the United States stocking standard B-Line products for quick service and delivery.

This catalog is designed to be helpful to engineers and contractors in the application and selection of pipe hangers, supports and seismic bracing for construction and maintenance.

If a unique application requires a special product not included in this catalog, B-Line engineering personnel are ready to furnish design consultation and realistic material estimates. In addition, sales representatives with engineering expertise are located throughout the United States and abroad for your convenience.

WARNING

All hanger products in this catalog are intended for installation and service as illustrated or described. Do not use them for any purposes other than those described in this catalog. Products that are used for unintended purposes could fail, resulting in severe personal injury or death.

Examples of misapplications which could cause severe personal injury or death include, but are not limited to:

- Using a beam clamp on a beam other than those described in the catalog;
- Using concrete inserts as anchors for pulling pipe up to the required elevation;
- Suspending clevis hangers, one under another, which could result in an accumulative load that is greater than that which the pipe hanger will support.

B-Line pipe hanger and support products are manufactured in accordance with industry standards. Our customers should exercise care to use these products properly so as to avoid potential accidents. Contact B-Line for assistance with proper installation and use of the products in this catalog.

NOTICE

Cooper B-Line reserves the right to change the specifications, materials, equipment, prices or the availability of products at any time without prior notice. While every effort has been made to assure the accuracy of information contained in this catalog at the time of publication, Cooper B-Line is not responsible for inaccuracies resulting from undetected errors or omissions.
