

4Dimension™ strut system

Changing how we build our future

Eaton's B-Line series 4Dimension strut system changes how installers will build and install support systems for electrical, mechanical, plumbing, HVAC and data centers in new and retrofit commercial and industrial applications.

The revolutionary strut profile design and innovative accessories help installers compress project schedules and cut material costs without sacrificing load while increasing configuration flexibility.

Innovative features

- Profiles with two-sided and four-sided functionality
- Superior strength, lighter weight for improved performance
- Modular design provides versatility
- SH hole accepts 5/8" hardware
- Innovative fitting solutions with virtually hundreds of possibilities
- Ideal for new and retrofit applications
- Meets or exceeds MFMA standards
- Patents pending

Lowest total cost solution

- Up to 50% reduction in installation time for trapeze applications
- Up to 50% reduction in material cost in many applications
- Helps save space and weight by fully utilizing multiple sides for ease and flexibility of installation
- Functional replacement for back to back strut system, with considerable cost, time and material savings
- Compatible with most traditional fittings and accessories
- Multi-side design reduces complexity of higher cost fittings required for many applications

Save up to 50% on material and installation time

With the introduction of the 4Dimension™ strut system with up to four-sided functionality, Eaton has expanded strut into the next dimension by delivering up to 50% savings on materials and installation time.
