Type 3R Hinge & Screw Cover Current Transformer Enclosures

Features

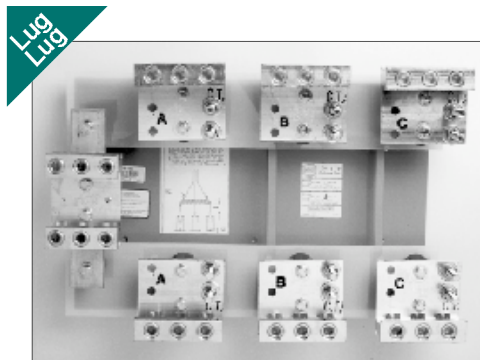

- Hinged or Screw-type cover.
- Pad lockable hasp.
- UL 414 listed, Type 3R rated.
- 18" - 48" height and width available.
- Covers completely removable.
- Studs installed for CT mounting base (see back for exceptions).

NEMA 3R Type enclosure designed to house current transformers that meet ANSI C12.11. Special mounting studs in the back of the enclosure allow fast and easy installation of CT Mounting Base. Widest variety of sizes in the industry, these enclosures offer the customer the convenience of a removable, hinged cover or secure, economical screw-type cover. Both come with welded pad-lockable feature for security.
