

# Adjustable Cable Management Spool

## Features

- Unique, expandable design that provides for in-and-out depth adjustability
- Easily adjusts from 5" to 8" with hands-only twist and lock capability
- No tools required for adjustment
- Pre-installed screws for quick mounting inside cable pathways
- 1 1/8" radius to protect cable bend radii
- Compatible with RCM, RCM+, and V-Line Vertical Cable Managers

UPC No.	Part No.	Description
79903834462	SB860ACSFB	Adjustable Cable Spool

Rack & Runway • BA202COM

## Step-By-Step Installation

(1) Loosen the nylon nuts on the back of the spool.

(2) Determine the proper mounting height on the vertical cable manager.

(3) Insert the nylon nuts through the keyholes in the vertical cable manager.

(4) Slide the spool down so that the nuts are in the bottom of the keyholes.

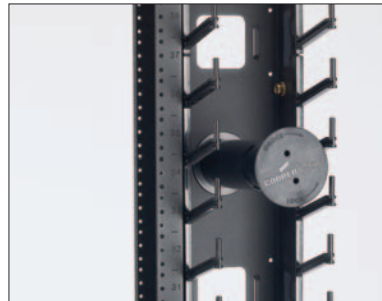

(5) Tighten the nylon nuts.

(6) Twist clockwise to unlock spool slide.

(7) Pull sleeve outward and turn counter-clockwise to lock.

(8) Installation is complete and ready for cables to be installed.
