CPVC Pipe Hangers
Straps To Support Your Piping
Cooper B-Line, Inc. is a leading manufacturer and fabricator of metal products used in the support of pipe and equipment for industrial, commercial, utility, and OEM installations. Cooper B-Line is proud of the exacting standards of research, design, engineering, and manufacturing that go into each and every product that comprise our pipe hanger product line. Our customers have access to the most complete support systems offered in the industry, including pipe hangers, metal framing, cable tray, slotted angle, fasteners, telecom, enclosures and anchors.

Constructed of galvanized steel, CPVC pipe straps have flared edges to help protect pipes from damage. Packaged with hex head screws, the CPVC pipe straps can be installed onto wood beams without drilling. Special tek type screws are available (sold separately) to attach CPVC pipe straps to steel.

### One-Hole Wrap Around CPVC Pipe Straps

**Application:**
The One-Hole Wrap Around CPVC Pipe Strap is designed to support pipe running horizontally on the side of a beam. It can also be used, as a guide, to mount CPVC pipe that runs perpendicular across the top of a beam or on a vertical pipe run.

**Features:**
- Beveled edges protects CPVC pipe from damage
- Easily attaches to wood structure with included screws or to minimum 20 gauge steel with special screws (sold separately)
- Strap is UL Listed
- Sizes: 3/4” (19mm) through 2” (50mm) CPVC pipe
- Includes: one (1) each pipe strap and #10 x 1 5/16” hex head screw
  Optional: 1/4” x 1” (25.4mm) tek type screw for mounting to steel (sold separately)
- Strap has one (1) 1/4” (6.3mm) diameter hole for mounting
- Material: 20 gauge (0.9mm) x 1 1/8” (28.6mm) pre-galvanized steel

**Support Application**
Horizontally mount CPVC pipe

**Guide Applications**
- Running CPVC pipe vertically
- Running CPVC pipe perpendicular across top of beam
Two-Hole CPVC Pipe Straps

Application:
The Two-Hole CPVC Pipe Strap is designed to support pipe running horizontally on the side of a beam or pipe running perpendicular to the bottom of the beam. It can also be used, as a guide, to mount CPVC pipe that runs perpendicular across the top of a beam or on a vertical pipe run.

Features:
- Beveled edges protects CPVC pipe from damage
- Easily attaches to wood structure with included screws or to minimum 20 gauge steel with special screws (sold separately)
- Retaining dimples simplify installation process
- Strap is UL Listed
- Sizes: 3/4” (19mm) through 2” (50mm) CPVC pipe
- Includes: one (1) pipe strap and two (2) #10 x 1 5/16” hex head screws
  Optional: 1/4” x 1” (25.4mm) tek type screw for mounting to steel (sold separately)
- Strap has two (2) 1/4” (6.3mm) diameter hole for mounting
- Material: 20 gauge (0.9mm) x 1 1/8” (28.6mm) pre-galvanized steel

Support Applications
- Side mounted on wood joist
- Bottom mounted on wood joist

Guide Applications
- Running CPVC pipe vertically
- Running CPVC pipe perpendicular across top of beam
## Two-Hole Side Mount CPVC Pipe Straps

### Application:
The Two-Hole Side Mount CPVC Pipe Strap is designed to support pipe running perpendicular to the beam. When attached to the bottom of the beam it supports the pipe, but when attached to the top of the beam it will only act as a guide.

### Features:
- Beveled edges protect CPVC pipe from damage
- Easily attaches to wood structure with included screws or to minimum 20 gauge steel with special screws (sold separately)
- Retaining dimples simplify installation process
- Strap is UL Listed
- Sizes: 3/4” (19mm) through 2” (50mm) CPVC pipe
- Includes: one (1) pipe strap and two (2) #10 x 1 5/16” hex head screws
  Optional: 1/4” x 1” (25.4mm) tek type screw for mounting to steel (sold separately)
- Strap has two (2) 1/4” (6.3mm) diameter hole for mounting
- Material: 20 gauge (0.9mm) x 1 1/8” (28.6mm) pre-galvanized steel

Support Applications
- Side mounted on wood joist
- Bottom mounted on wood joist

Guide Applications
- Running CPVC pipe vertically
- Running CPVC pipe perpendicular across top of beam
Applications

Special screws are available when mount straps to steel, order separately.

Note:
Hex head screws are included with clamps for mounting to wood support surfaces. When mounting to a steel surface, a 1/4” x 1” tek type screw is required (sold separately).

Special screws are available when mount straps to steel, order separately.
