

## GrateWalk™ rooftop walkways with integrated DURA-BLOK™ supports

### FEATURES & BENEFITS

- Slip resistant Grate-Lock™ safety grating helps provide a safe walkway for foot traffic on the roof
- Easy to install, elevated design, creates an identifiable path for foot traffic helping prevent wear and tear to the roof surface
- Cross-over design offers safe passage over existing cabling, piping, cable tray or any other interference on the rooftop
- Self-cleaning pattern allows water and dirt to easily flow through, making it ideal for all weather conditions
- Integrated with 100% post-consumer recycled rubber DURA-BLOK™ supports, which allows for LEED credit qualification
- Solid support for the walkway stays in place and replaces the need for separate rubber roof mounting pads which tend to float away

### AVAILABLE IN MULTIPLE CONFIGURATIONS\*

- Straight Sections for long straight stretches of pathway
- Cross-over options to install over the existing cable trays, piping, and more
- Stairways over the top of existing equipment or leading up to existing equipment
- Platforms to provide access to rooftop mounted equipment
- Accessories available to support unique requirements

\*All Items are shipped individually for field assembly
