

RuffIN™

Ruff-IN™ Pre-Fab Systems

Save time, lower costs and become more competitive with the most efficient approach to electrical installation

COOPER B-Line

“I own a pre-fab shop, and I need high-quality, innovative components that will keep me versatile for my customers’ projects.”

Basic Ruff-IN™

Whether you run your own pre-fab shop or simply want maximum project control, Basic Ruff-IN can provide a profitable pre-fab solution that perfectly suits your operation. Keep control of your project, keep your crew working and garner the cost- and time-saving benefits of pre-fab with Basic Ruff-IN assemblies.

Advantages

- Innovative, versatile designs that minimize the number of SKUs required to stock
- Many tool-less installation products
- Quick Ship Program for high volume products ensures 24-hour lead time
- Union-made assemblies, manufactured in the USA
- UL Listed assemblies

Offerings

- Brackets
- Boxes
- Mud rings
- Ground wire
- MC and EMT connectors and more

Featured Innovations

Croc-Lok™ Mounting Bracket

Tool-less installation in less than 4 seconds with locking ‘teeth’ to eliminate side-to-side movement.

Telescoping Slider Bracket

The industry’s first fully adjustable support bracket.

Experience the competitive edge of Ruff-IN pre-fab assemblies. Speak with one of our consultants or visit www.cooperblineline.com/ruff-in to download our Ruff-IN catalog and to review our Quick Ship Program.

"I need a manufacturer that can provide pre-fab assemblies based on my own take-off drawings."

Ruff-IN™ with Wiring Devices and/or MC Cable Whips

You can benefit from Ruff-IN pre-fab while still managing your installation and take-off. We deliver Ruff-IN assemblies with wiring devices and/or MC cable whips included according to each customer's configuration drawings. And with room-to-room delivery, we keep projects on time and cost effective, eliminating jobsite waste.

Advantages

- Pre-wired configuration based on contractor's request
- Thousands of SKUs available, including all standard device options
- Cables attached or not attached to assemblies
- Wiring configurations available for MC-insulated ground
- Quick response to unforeseen challenges on the jobsite
- UL Listed assemblies

Offerings

- **Ruff-IN with Wiring Devices:** Bracket, box, mud ring, wiring assembly device or ArrowLink connector, protective cover plate and more
- **Ruff-IN with MC Cables:** Basic Ruff-IN with wiring assembly device or ArrowLink connector, protective cover plate, MC cable whip with MC connector(s) and more

Featured Innovations

Floor-Mount Box Support

Versatile floor stand provides multiple mounting options for a variety of installation requirements.

Double Sided Box Support Bracket

Unique design allows for installation on either side of the stud and can be secured with or without plaster rings.

We strive to keep the profit-boosting advantages of Ruff-IN available to a broad spectrum of contractors' needs. For more information, talk to one of our representatives today or visit www.cooperblinc.com/ruff-in to download our product catalog and labor savings calculator.

*“I need a full-service solution—
from take-off to scheduling
to customized delivery—
on time and within my budget.”*

TOTAL Ruff-IN™

For contractors requiring full design and manufacturing support, TOTAL Ruff-IN delivers a complete turn-key solution by interpreting project take-off drawings into a mapped outline of Ruff-IN pre-fab assemblies. Our team of TOTAL Ruff-IN designers will draft a custom project plan to seamlessly implement your pre-fab solution, including floor-by-floor detailed assembly and room drawings.

Advantages

- Team of designers ready to create a pre-fab system for your specific project
- Floor-by-floor labeling and packaging
- No jobsite assembly required
- Less waste on the jobsite
- Significant time and cost savings
- Streamlined, organized process from take-off to scheduling to delivery

Offerings

- Design take-off service
- Ruff-IN assemblies
- MC cable whips

Help Lower Costs and Compress Your Schedule with Ruff-IN™

Ruff-IN electrical pre-fab systems save on time and help lower costs for a healthier bottom line. With tiered service options to match your exact specifications, Ruff-IN solutions from Cooper B-Line will make you more competitive by replacing the tedious complications of conventional rough-in installation with an easy, tightly streamlined installation system.

We are the only provider that supplies our customers with three distinct options to serve their unique needs:

- **Basic Ruff-IN**, providing cutting-edge pre-fab components
- **Ruff-IN with Wiring Devices and/or MC Cable Whips** to match your take-off drawings and allow greater control
- **Total Ruff-IN™**, delivering full estimating, designing and manufacturing support

We are continuously developing new, innovative solutions so that the Ruff-IN pre-fab system excels in lowering project costs and boosting profitability. Visit us today at www.cooperbline.com/ruff-in and use our labor savings calculator to see what you can save on your next project.

Featured Innovation

Rapid-Ring™ Self-Adjusting Pre-Fab Ring

A revolutionary tool-less assembly that installs with a simple 4-step installation—in as little as 15 seconds.
