## Cooper B-Line DURA-BLOK™ TOLCO Cross Reference

### Cooper B-Line DURA-BLOK to PIPE PIER™ Cross Reference

DURA-BLOK rooftop supports are produced from 100% recycled tire rubber and offer the following advantages over competitive thermoplastic and foam products:

- Higher load capacity
- Higher density which helps prevent blowing away in windy environments
  - No requirement to glue or fasten in place
- No secondary mats or other bases required for installation
  - Qualification for LEED credits
  - Improved vibration damping capabilities

**Suggested Cooper B-Line replacements for Pipe Pier rooftop supports:**

COOPER B-LINE DURA-BLOK	DURA-BLOK LOAD CAPACITY	TOLCO PIPE PIER	PIPE PIER LOAD CAPACITY
DB5 or DB10	500 lbs.	PP50ELH4 - PIPE PIER Elite	50 lbs.
DB5 or DB10	500 lbs.	PP30ELH4 - PIPE PIER Elite	30 lbs.
DB5 or DB10	500 lbs.	PPC50H6 - PIPE PIER	50 lbs.
DB5 or DB10	500 lbs.	PPC50H4 - PIPE PIER	50 lbs.
DB5 or DB10	500 lbs.	Plenum Pier	50 lbs.
DB5 or DB10	500 lbs.	PP150H4 - PIPE PIER 150	150 lbs.
DB5 or DB10	500 lbs.	PP300H4 - PIPE PIER 300	300 lbs.
