

Cooper B-Line | TOLCO
Product Transition Guide
March 2012

Table of Contents

In October 2011, Cooper B-Line announced the acquisition of TOLCO. The addition of TOLCO's seismic bracing and fire protection solutions builds upon Cooper B-Line's broad solution portfolio in electrical and mechanical support systems. We are proud to be able to supply our customers with an even broader product line as a result of the acquisition; at the same time we are taking actions to eliminate duplication between the two product lines.

The Product Transition Guide is intended to provide information on product availability throughout the transition of integrating TOLCO into Cooper B-Line. Following are a few highlights regarding the transition process which helped to shape the guide:

- Most TOLCO brand seismic and fire protection solutions will continue to be manufactured at the Corona, CA facility and can be ordered using prior TOLCO figure numbers. Labels and stampings will retain prior TOLCO figure numbers.
- Most TOLCO brand general mechanical parts will assume a Cooper B-Line number and may be manufactured in either Highland, IL or Corona, CA. Labels and stampings will eventually be converted to the Cooper B-Line figure number.
- The transition will take place throughout 2012 so parts slated for discontinuation with replacement or discontinuation without replacement may still be available for a limited time until their inventory is depleted.

Below are the contents of the guide:

Cooper B-Line Replacements for Discontinued TOLCO Figure Numbers

Pipe Hangers/Pipe Supports.....	1
Strut Systems.....	3
TOLCO Figure Numbers with Continued Availability	5
TOLCO Figure Numbers Discontinued without Replacement.....	6
Material/Finish Suffix Cross Reference	6

The Product Transition Guide may be updated throughout 2012 so please check <http://www.cooperbline.com> for new editions. Thank you for your continued support and please do not hesitate to contact the Cooper B-Line team for further information.

Regards,

Adam Conklin
Product Manager
