

Date: July 6, 2018

To: Bussmann series CCP Class CC and UL Supplemental switch customers
Subject: End-of-life notice

Dear valued customer:

The Bussmann™ series Compact Circuit Protector switch that was launched in 2007 for UL® Class CC, UL Supplemental and IEC 10x38 mm fuses is being superseded with its next generation versions.

Effectively immediately, all Bussmann series CCP-CC and CCP-M products, and their accessories, are discontinued. These products will continue to be available for purchase until inventory is exhausted. Any existing stock is saleable product and should not be returned.

The next generation switches are a form, fit, and function replacement for the discontinued switches.

Accessories for discontinued switches are not forward compatible with the next generation switches. Nor are the accessories for the next generation switches backwards compatible with the discontinued products.

The affected catalog numbers, UPC codes and recommended direct replacements are listed below.

Fuse class	Discontinued CCP		Next Generation CCP2	
	Catalog Number	UPC	Catalog Number	UPC
CC	CCP-1-30CC	051712157858	CCP2-1-30CC	051712709163
