SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

**CAUTION** Read carefully before installing and wiring the luminaire.
These instructions include information for installation in both hazardous and ordinary locations. Any warning or special instructions should be closely followed. Hazardous area installations should be done in accordance with article 500 and 501 of the NEC or CEC. Intended for vertical mounting. Check the ratings to insure suitability for the area.

**INSTALLATION & ELECTRICAL WIRING**

**WARNING** Risk of electrical shock hazard, only qualified personnel should conduct this procedure!
Do not make electrical connections with the power ON. Use cu or cu clad wire only, rated for 90°C.

1. Thread the pendant hoo (0A) onto conduit or fitting, tighten securely and lock into position with set screw (9H).
2. Route supply cable thru conduit or fitting.
3. Strip the supply cable(s) jacket (not provided) back approximately 3”.
4. Strip the insulation of the supply wires back approximately 3/8”.
5. Attach ground wire to the green screw (9D) in pendant hoo (0A).
6. Using connectors rated 90°C, connect the hot wire to black and the neutral to the white wire.
7. Push connections inside pendant hoo (0A).
8. Align the holes in socket plate (5A) with pendant hoo (0A) holes. Install screws (9B) (qty 2, #8-32) in place and tighten approximately 10 in*lbs.

**WARNING** Note maximum lamp wattage rating as indicated on the luminaire. Exceeding this can cause over heating, premature failure and be dangerous. The lampholder is rated for a maximum of 250 volts. The voltage of the lamp must correspond with the supply voltage.
9. Install the proper wattage lamp (not provided) into the lampholder (4A), making sure the center contact of the lamp seats well into the lampholder.
10. Thread the glass globe (1C) clockwise into the junction box (0A), and tighten firmly by hand until the globe stops and seats well against the globe gasket (7A).
11. Thread the guard (2A) on clockwise and tighten firmly by hand. For cast guard, lock in position with set screw (9G).
