MERIDIAN FT SERIES
FLUORESCENT LUMINAIRES
Installation & Maintenance Information

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

CAUTION Read carefully before installing and wiring the luminaire. These instructions include information for installation in both standard and inside marine locations. Any warning or special instructions should be closely followed. All luminaires must be properly grounded. Must be installed in accordance with the NEC (National Electrical Code) and all other applicable codes.

INSTALLATION & ELECTRICAL WIRING

WARNING Risk of electrical shock hazard, only qualified personnel should conduct this procedure! Do not make electrical connections with the power ON. Use cu or cu clad wire only, rated for min. 90°C.

The FT Series fixtures are provided with 1/2" and 3/4" knock out for wiring. Installer must use proper electrical fittings to maintain dripproof integrity.

1. Place fixture (0A) inside 2x2 or 2x4 T-Bar ceiling grid. See fixture illustration below for detail dimensions.

CAUTION Due to weight of fixture, it maybe necessary to support fixture with cable or drop rods (not provided).

NOTE: Large 2x4 fixture can weigh up to 35 lbs.

2. Fixture can be supported by 4 tabs (9D) on top surface. Bend tabs (9D) with small screwdriver.

3. Route steel cable thru tabs or attach to drop rods.

4. Open lens frame door (1B). Remove side cover (3A).

NOTE: This fixture is listed as "Marine Inside Type Drip-proof", consideration should be given when selecting cord grips to insure a drip-proof seal around the cable.

5. For direct (Dead End) wiring, open access cover (5B).

6. For in-line wiring, break desire knock out (8A), 1/2" or 3/4" opening.

7. Select electrical fitting and route wires thru fitting and into fixture.

CAUTION See product label for voltage input and amperage load per fixture. Use only approved electrical type splices. Route wires away from fluorescent ballast when feeding cables through fixture.

8. Connect wires to terminal block (4E) mounted to access cover (5B).

Connect L1 or hot lead to black wire terminal.
Connect L2 or neutral to white wire terminal.
Connect ground wire to ground screw (4F) on access cover (5B).

9. Replace access cover (5B).

10. Replace side cover (3A).

11. Install lamps.

12. Close lens frame door (1B) and tighten thumb screws.
