FN SERIES
FLUORESCENT LUMINAIRES
Installation & Maintenance Information

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

CAUTION Read carefully before installing and wiring the luminaire.
Check the ratings to ensure suitability for the area. Must be installed in
correspondence with the NEC (National Electrical Code) and all other applicable
codes. These luminaires are not suitable for hazardous locations.

INSTALLATION & ELECTRICAL WIRING

WARNING Risk of electrical shock hazard, only qualified personnel should conduct this procedure!

Do not make electrical connections with the power ON. Use cu or cu clad wire only, see product label for wire temperature
rating. Convenience outlet is rated for 125 vac, maximum 15 amp.

1. Make (2) mounting holes for minimum #10 screws (not provided)
   per mounting dimensions below.
   
   NOTE: This luminaire is for wall mount only.
2. Remove the end cover (0A) by loosening #8 screws (9A) (qty. 2x, #8).
3. Carefully slide out lens (5A).
4. Remove reflector assembly (0C) by loosening #8 screws (9B)
   (qty. 4x, #8-32).
5. Remove knockout on back of housing and install fitting
   (not provided) to housing (0B).
6. Route supply cable (not provided) thru fitting and tighten securely.
7. Secure luminaire to wall with (2) minimum #10 screws (not provided).
8. Strip the supply cable(s) jacket back approximately 2".
9. Strip the insulation of ground and supply wires approximately 3/8".

CAUTION See product label for voltage input and amperage load per fixture.
10. Using connectors, connect the L1 (hot) wire to black and L2 (neutral)
    to the white wire. Connect ground wire to ground screw or green wire.
    See wiring diagram.
11. Push all wires and connections inside housing (0B) area.
12. Carefully replace reflector assembly (0C) making sure wires are
    not pinch. Secure with #8 screws (9B) (qty. 4x, #8-32).

CAUTION Use only fluorescent lamp to lampholder type and wattage
rating indicated on the luminaire. Exceeding this can cause over heating,
premature failure and be dangerous.
13. Install the proper wattage lamps (not provided) into the lampholders (4B).
15. Replace end cover (0A) and tighten #8 screws (9A) (qty. 2x, #8).
16. Apply power and inspect for proper operation.
