1017B SERIES
INCANDESCENT LUMINAIRES
Installation & Maintenance Information

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

Read carefully before installing and wiring the luminaire.
Must be installed in accordance with the NEC (National Electrical Code) and all
other applicable codes. These luminaires are not suitable for hazardous locations.

All luminaires must be properly grounded. Luminaires are supplied with an
8 foot cord and NEMA 5-15 plug. Turn off luminaire before relamping. Do not
attempt to install this luminaire unless you are familiar with warnings, cautions
and procedures outlined in this information sheet.

INSTALLATION & ELECTRICAL WIRING

WARNING Risk of electrical shock hazard, only qualified personnel should conduct this procedure!
This luminaire is rated to operate on 120v ac / 60Hz circuit only.

1. Make (4) mounting holes for minimum #10 screws
   (not provided) and one Ø1.12" hole per mounting
   dimensions below.
   NOTE: This luminaire is for surface mount with lamp
   in upward orientation only.
2. Remove #8 screws (9A) (qty. 4x, #10-32).
3. Slide out mounting plate (0B).
4. Route power cord (4A) thru Ø1.12" hole.
5. Secure mounting plate (0B) to surface with (4) minimum
   #10 screws (not provided).
6. Place all wires and connections inside mounting plate
   (0B) area.
7. Assemble base (0A) to mounting plate (0B), making sure
   wires are not pinched. Secure with #8 screws (9A) (qty. 4x,
   #10-32).
8. Connect power cord (4A) to grounded supply circuit.
9. Remove lamp shade (5A) by loosening thumb screw (9C).
   CAUTION Maximum 150 watts Type A-21 lamp.
   Exceeding this can cause over heating, premature failure
   and be dangerous.
10. Install the proper wattage lamps (not provided) into
    the lampholders (4B).
11. Replace lamp shade (5A) and tighten thumb screw (9C).
12. Apply power and inspect for proper operation.
