**RECEPTACLES AND SWITCHES**

Installation & Wiring Information

**SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE**

**CAUTION** Read carefully before installing and wiring the receptacle. Any warning or special instructions should be closely followed. Check the ratings to insure suitability for the environment & supply. Must be installed in accordance with the NEC or CEC and all other applicable codes. All junction boxes must be properly grounded. These devices are not suitable for hazardous locations.

**WARNING** Risk of electrical shock hazard, only qualified personnel should conduct this procedure!

These devices are for interior use only, do not use in wet and/or outdoor locations. Do not make electrical connections with the power ON. Use cu or cu clad wire only.

These junction boxes are not provided with cable entry holes. All holes added should be done by experienced personnel. These junction boxes can be supplied with up to 3/4" NPT through feed outlets. Keep tightly closed when in operation. Do not attempt to install this receptacle unless you are familiar with warnings, cautions and procedures outlined in this information sheet.

**INSTALLATION & ELECTRICAL WIRING**

1. Locate and drill cable gland hole through the thickened area of the junction box (0A) per instructions furnished with cable gland (not provided). Clean all foreign material out of junction box.
2. Mount the junction box (0A) in its intended location using #10 screws (not provided). See illustration below for mounting dimensions.
3. Cables should be stripped back approx. 6" - 10" to allow individual wires to flex.
4. Install cable gland (not provided) to junction box (0A) per instructions furnished with cable gland.
5. Route cable in through cable gland and secure to cable jacket.

**CAUTION** See marking on device for voltage and current ratings.
6. Connect L1 lead to terminal on device (4A).
7. Connect L2 lead to terminal on device (4A).
8. Connect Green or earth wire to green ground screw on device (4A).
9. Place device (4A) inside junction box (0A).
10. Mount device (4A) to junction box with screws (9C) provided.
11. Mount cover (1A) to junction box (0A) with screws (9B) provided.
