NOTE: Flax packing not provided, and sold separately.
For sealing purposes only, not a means of strain relief.

Male/Female Stuffing Terminal Assembly Information:
1. Thread terminal body (1A) into cable entrance or onto conduit. Tighten for a watertight seal.
2. Slide packing nut (2A) and washer (3A) over cable(s).
3. Route cable(s) thru terminal body (1A) to desired distance.
4. Pack terminal body (1A) with flax packing (not provided) at least 3/4 full.
5. If multiple cables are used, it is suggested to wrap them with flax packing also.
6. Slide washer (3A) into body and tighten packing nut (2A) to compress packing and seal cable(s).
7. Note that if desired seal is not reached, repeat steps 4, 5 & 6 until cable(s) are sealed.

Through bulkhead Assembly Information:
1. Install terminal body (1A) through bulkhead and tighten nuts (4A).
2. Follow steps 2-7 as outlined above.

Note that a means of sealing the terminal body through the bulkhead is not provided.
