EV LED explosionproof
LED luminaires

EV LED luminaires are designed to provide durable and energy-efficient lighting in a variety of applications. Incandescent and HID general illumination models are available, along with a wildlife-friendly model and optional DC input voltage.

<table>

<td>701</td>
<td>70W-100W HID</td>
<td></td>
</tr>
</tbody>
</table>

Applications:
- Two lumen outputs for replacement of existing HID and incandescent luminaires
- Locations requiring continuous and consistent light levels in extreme ambient temperatures
- Areas requiring frequent on-and-off of lights
- Where flammable vapors, gases, ignitable dusts, fibers or flyings are present, indoors or outdoors
- Where extremely corrosive, wet, dusty, hot and/or cold conditions exist
- Type 4X, marine, wet locations and hose down environments
- Manufacturing plants, heavy industrial, chemical, petrochemical or pharmaceutical facilities, platforms, loading docks, tunnels, outdoor wall and stanchion mounted general area lighting

Certifications and compliances:

NEC/CEC:
- Class I, Division 1, Groups C, D
- Class I, Zones 1 & 2, Group IIB
- Class II, Groups E, F, G
- Marine and wet locations, Type 4X, IP66
- UL Listed
- cUL Listed (certified by UL to CSA standards)
- T6 temperature rating at 55°C

NEC:
- Class III, Simultaneous Presence

UL standards:
- UL844 – Electric Fixture Hangers for Hazardous Locations
- UL1598 – Luminaire
- UL1598A – Luminaire for Installation on Marine Vessels

CSA standard:
- C22.2 No. 137

Features:
- Instant illumination and re-strike
- Better visibility with crisp, white light
- T6 temperature rating – safely operate in the most hazardous environments
- Cold temperature operation/no warm-up required
- Easy installation – compact modular fixture attaches onto existing Champ® mounting module
- Energy-efficient – up to 85% reduction in energy used
- Provides up to 50,000 hours rated life – eliminates need for frequent lamp replacement
- Contains no mercury or other hazardous substances
- Shock- and vibration-resistant solid state luminaires have no filaments or glass components that could break – greatly reduces the risk of premature failure
- Operating ambient: -30°C to 55°C (AC), -30°C to 40°C (DC)
- 5 year limited fixture warranty

Photometrics:
- Complete photometrics can be found at www.crouse-hinds.com/photometrics

Standard materials:
- Body, mounting modules and guard – copper-free aluminum with Corro-free epoxy powder coat
- Globe – heat and impact-resistant glass
- Gaskets – silicone
- External hardware – stainless steel

LED system:
- High brightness light emitting diode (LED) arrays
- Color temperature: 3000K (CRI 82) and 5600K (CRI 65) options available
- Amber color available for wildlife-friendly applications
- Advanced heat sink design ensures LED does not exceed manufacturer’s temperature ratings across all specified ambient conditions
- LM-79 and LM-80 reports available

Note: To order a fixture without a guard, remove “1” from the end of the catalog number. Example: EVLEDA2C20 for 3/4” pendant, no guard.
To order a fixture with 10-30 VDC input voltage (available on 20 series only), add ‘/DC’ to the end of the catalog number. Example: EVLEDA2C201/DC.
To order a fixture with colored inserts (available on C20 series only), add a ‘G’ (for green) or ‘R’ (for red) to the end of the catalog number. Example: EVLEDA2C201G.

Accessories (ordered separately):

Description
- Replacement red lens insert .................. EVLED G1 RED LENS INS
- Replacement green lens insert ........ EVLED G1 GREEN LENS INS
- Guard .................................................. EV505
- Replacement globe assembly ..................... EV78
