P23 GUARD FOR CHAMP® GR302, GR305, R2 & R5 REFRACTORS
Installation & Maintenance Information

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

⚠️ WARNING
To avoid the risk of fire, explosion or electric shock, this product should be installed, inspected, and maintained by a qualified electrician only, in accordance with all applicable electrical codes.

⚠️ WARNING
To avoid electric shock:
Be certain electrical power is OFF before and during installation and maintenance.

To avoid burning hands:
Make sure globe (refractor, lens, etc) and lamp are cool when performing maintenance.

INSTALLATION

This guard may be installed on a refractor that is either attached to, or is separated from, a Champ® luminaire.

To Install:

1. Loosen screw on the guard clamping rings only enough to allow guard to be placed over one side of the refractor ring. See Figure 1.

2. Position guard so guard ribs will not interfere with the refractor clamping ring screw.

3. With guard spread open, fit guard over metal clamping ring of the refractor. See Figure 1.

4. Inspect to insure that guard clamping rings are fully engaged over refractor clamping ring.

5. Securely tighten screw of guard clamping rings. See Figure 2.

To Remove:

To remove the guard, reverse the order of the five "To Install" steps above.
