Simple. Smart. Secure.

Today, homeowners expect lighting that fits their lifestyle. The HALO Home system lets you easily build a lighting plan that meets your needs, enhances convenience and aesthetics, saves energy and adds security.

Smart lighting – new standard.

HALO Home is a flexible new approach to smart home lighting. Our system offers a range of fixtures, controls and accessories that work seamlessly together. Easily configure lighting via Bluetooth connection using any smart device. From a single light to an entire home, your smart lighting search starts and ends here. No internet or hub required to operate.
HALO Home app
Our user-friendly mobile app lets you control lighting from your fingertips, and from anywhere in the world (with the optional Smart Internet Access Bridge). Available for iOS and Android, it features dimming, adjustable white tuning, grouping, automatic scheduling and more.

Flexible and scalable
HALO Home is a simple and flexible connected option, with the ability to install as little as one smart light or scale up to control the entire home through the easy-to-use HALO Home app.

Voice control compatible
Customize your home lighting with voice command. HALO Home is compatible with Amazon Alexa and Google Assistant products, when paired with the optional Smart Internet Access Bridge.

Adjustable white tuning
Select the perfect color for your mood and beautifully complement your home. The HALO Home smart lighting fixtures provide the ability to adjust color temperatures from 2700K (warm white) to 5000K (daylight).
