Distributed Low Voltage Power System

WARNING

Risk of Fire, Electrical Shock, Cuts or other Casualty Hazards: Installation and maintenance of this product must be performed by a qualified electrician. This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and hazards involved. For continued protection against shock hazard replace all covers and guards after field wiring is completed.

Risk of Fire and Electric Shock: Before installing or performing any service, the power MUST be turned OFF. All installations should be in compliance with the National Electric Code and all state and local codes.

Risk of Burn: Disconnect power and allow fixture to cool before handling or servicing.

Risk of Personal Injury: Due to sharp edges, handle with care. Failure to comply with these instructions may result in serious injury (including death) and property damage. Use caution when handling the wallstation while the faceplate is removed.

DISCLAIMER OF LIABILITY: Eaton assumes no liability for damages or losses of any kind that may arise from the improper, careless, or negligent installation, handling or use of this product.

IMPORTANT: Read carefully before installing fixture. Retain for future reference.

NOTICE: Fixture may become damaged and/or unstable if not installed properly.

Note: Specifications and dimensions subject to change without notice.

ATTENTION Receiving Department: Note actual fixture description of any shortage or noticeable damage on delivery receipt. File claim for common carrier (LTL) directly with carrier. Claims for concealed damage must be filed within 15 days of delivery. All damaged material, complete with original packing must be retained.

NOTICE: Designed for indoor installation and use only. Dry location rated.

IMPORTANT SAFEGUARDS

When using electrical equipment, basic safety precautions should always be followed including the following:

a) READ AND FOLLOW ALL SAFETY INSTRUCTIONS.

b) Do not use outdoors (this item may be omitted if the product is suitable for outdoor use).

c) Do not let power supply cords touch hot surfaces.

d) Do not mount near gas or electric heaters.

e) Use caution when servicing batteries. Battery acid can cause burns to skin and eyes. If acid is spilled on skin or in eyes, flush acid with fresh water and contact a physician immediately.

f) Equipment should be mounted in locations and at heights where it will not readily be subjected to tampering by unauthorized personnel.

g) The use of accessory equipment not recommended by the manufacturer may cause an unsafe condition.

h) Caution: Halogen cycle lamp(s) are used in this equipment. To avoid shattering: Do not operate lamp in excess of rated voltage, protect lamp against abrasion and scratches and against liquids when lamp is operating, dispose of lamp with care.

i) Halogen cycle lamps operate at high temperatures. Do not store or place flammable materials near lamp.

j) Do not use this equipment for other than intended use.

SAVE THESE INSTRUCTIONS
1. MOUNT LOW-VOLTAGE POWER MODULE

Min. 3" (75mm)

Min. 24" (600mm)

Min. 12" (300mm)

2. PROVIDE POWER

⚠️ All new wiring must be fully verified before applying power.

3. CONFIGURE POWER MODULE

Note: LVPM-03-100-03 and LVPM-06-100-03 do not have emergency inputs

4. CONNECT FIXTURES

5. FIXTURE ZONE ASSIGNMENT

Note: Zone 1 is any DIP switch configuration that is not specifically zone 2 or zone 3.

Note: During normal operation, avoid setting all DIP switches to the ON position.
OR:

6. CONNECT WALLSTATIONS (up to 12)

Pre-terminated control cable

7. CONNECT SENSORS (2 Occupancy / 1 Daylight)

GGRC-COUPLER (Daylight Sensor Coupler)

OCC-RJ45 (Input/Output Device)

Pre-terminated control cable

OR:

8. CONNECT RECEPTACLE SWITCHPACK (up to 5)

Pre-terminated control cable
