With maximized performance in a uniquely minimal profile, the new Loft Micro Wall features crisp modern lines with a new, ultra-high efficiency, clear micro-prismatic lens material to meet the tightest watts-per-square foot requirements. The Loft Micro Wall may be mounted over standard 2"x4" J-Boxes for individual or continuous configuration using 4' and 8' modular sections. The Loft Micro Wall is suited for open office perimeters, private offices, conference rooms, corridors and public spaces and is ADA compliant.

**SPECIFICATION FEATURES**

**A ... Construction**
Housing is one piece die-formed steel forming a 2-3/8" angled profile. Standard 4'-0" and 8'-0" fixture lengths combine for continuous runs.

**B ... End Plates**
Standard end plates are 14-gauge cold rolled steel, mechanically attached without exposed fasteners.

**C ... Lens**
Lens is .125" thick clear microlinear prismatic acrylic material offering 93% transmission.

**D ... Reflectors**
Reflector pan is painted with a highly reflectance white powder coat finish. Optional die-formed side reflector is a highly specular anodized aluminum.

**E ... Electrical**
T5/T5HO fixtures are pre-wired with quick wire connectors and use UL listed Class P, T5/T5HO program rapid start universal voltage electronic ballasts, power factor of 97% with less than 10% THD. Fixtures and electrical components certified to UL and CUL standards.

**F ... Finish**
Fixture housings are standard white using electrostatically applied polyester powder coat paint.

**Mounting**
Fixture mounts directly to existing structure over a 2" x 4" standard electrical box mounted horizontally into the wall. Refer to installation section for details.
