The FPX LED panel series provides the high performance and aesthetic appeal of a flat panel while also being optimized for integrated sensors, emergency battery packs and multiple control options. The low-profile design is ideal for shallow plenum grid ceilings or surface mounting. The integrated grid clips enable installation speed and flexibility. FPX is an excellent lighting solution for commercial office spaces, schools, healthcare and retail merchandising areas.

- Variety of controls and emergency battery pack options in all sizes
- Low profile perfect for renovation or new construction
- Contractor friendly, quick and easy install
- No maintenance required
- Smooth, uniform, glare-free illumination
- One install = code compliance and maximum energy savings
- Perfect for low voltage applications using DLVP
Durable construction

- Integrated components are covered to meet code and ensure long-term durability of the product
- Impact and scratch-resistant lens with acrylic light guide
- Rigid steel frame and extruded aluminum box
- No maintenance - tight seams and no perimeter openings

Fast/simple install

- Wire and wire nuts provided — easy to connect fixture to circuit and fixture to fixture
- Multiple trade size KO and J-box rated for 12 AWG wire
- Factory wired EM and sensor deliver code compliance with one simple installation

Architectural appeal

- Seamless corners
- Superior optics with frosted lens provides smooth, even illumination
- Architectural appeal

Integrated emergency battery pack and sensor are discreetly positioned on the panel
Performance
High lumen options enable use in high ceilings, lower wattage options maximize energy savings
True replacement of two and three lamp troffers with T8, T5 or BX40 lamps
Long-life LED system lasts over 20 years
Five-year warranty

Integrated Controls
0-10V dimming to 10% standard 1-T, 2-T, O-2-T, OAK, L, L2, and step dimming available
Wavelette sensor compatible for ITF capability
Lumidome Pro sensor compatible for ITF capability
DVPD sensor compatible for out-of-the-box functionality
DVP sensor and driver compatible for low-voltage applications

Emergency Solutions
EL7=W7-watt, 120V-277V emergency battery pack installed
EL14=W14-watt 120V-277V emergency battery pack installed
EL7-VP=W7-watt, DLVP-compatible low voltage emergency battery pack installed
EL14-VP=W14-watt DLVP-compatible low voltage emergency battery pack installed
ETRD=Emergency Transfer Relay with dimming control

Compliance and approvals

Accessories
Surface Mount Kit
Easy surface install
Suspension Kit
Simple two-point suspension
Grid Retention
Guide and spec compliance
Battery
Fully integrated emergency
