GRLED

Metalux’s GRLED lensed troffers offer the ideal balance of LED performance and value. This series delivers top-tier LED performance, maximizing your energy savings and reducing maintenance cost, while offering the simplicity of our most popular lensed troffer family. With features like spring-loaded hinged door assembly for easy access, GRLED provides the perfect fit for virtually all recessed applications.

Construction / Mounting
- Recessed: 2’ x 2’, 2’ x 4’ and 1’ x 4’
- Depth: 3.25’
- Sustainable materials
- Five-year warranty

Performance
- High performance frost .095 lens standard
- High-performance efficacy up to 140 lm/W
- Energy savings in excess of 60% compared to traditional fluorescent troffers
- Four correlated color temperatures (3000K, 3500K, 4000K and 5000K) at > 80 CRI
- Long life up to:
  - 1’ x 4’: L85 @ 60,000 hrs.
  - 2’ x 2’: L88 @ 60,000 hrs.
  - 2’ x 4’: L89 @ 60,000 hrs.
- Binning: Per ANSI, 3-step MacAdam ellipse

Options
- Stocked lumen packages in either 3500K or 4000K CCT
  - 2’ x 2’: 2400, 3200 and 4300; 2’ x 4’: 3800, 4800 and 6400
  - Twenty-four additional lumen packages offered as MTO up to 18,000 lumens (2’ x 4’) and 9,000 lumens (2’ x 2’)
- Universal (120V/277V) or 347V
- Emergency – EL (700), EL14 (1400), ETS (2 options), and GTD
- Surface mount kits
- Wide variety for door and lens options
- Flex wiring configurations
- Chicago plenum rated version
- VividTune™ CCT tuning options (3000K - 5000K and 2700K - 6500K)

Controls
- GRLED can include a factory-installed integrated sensor system for occupancy and daylight dimming control, with programming and manual controls from an optional handheld remote.
- GRLED luminaires include 0-10V dimming drivers for control using wall dimmers (10% - 100%), daylighting sensors and room controllers from Eaton. Optional 1% dimming available.
- GRLED luminaires are available with native DALI drivers for complete digital energy management using Fifth Light addressable lighting controls.
- Connected sensors available with LumaWatt Pro and WaveLinx options.

Compliance and approvals

LM79 / LM80 Compliant
UL Listed
EnerGuide Compliant
DLC Qualified
DLC Premium
FCC Compliant

EATON GRLED General Recessed LED Lensed Troffer
Consult with our factory about GRLED series luminaires with integrated sensor system which are optimized to meet energy codes for occupancy sensing and daylight harvesting. These sensor systems are factory wired to the luminaire, switching on or off based on occupancy, and dimming the light when enough daylight is available, offering out-of-the-box operation using thoughtful default settings. When the application demands more, the sensor system has an optional remote control allowing changes from the default settings for occupancy, target light level, preset lighting levels, and to temporarily override automatic controls.

### Integrated Sensor Controls

- **WaveLinx**
  - Wireless Connected Lighting System
  - Adjustable occupancy sensing and daylight dimming control
  - Simple, secure wireless connectivity with out-of-the-box code compliance
  - Easy to use mobile application allows for fast set up and unlocks advanced control capabilities
  - Detection pattern covers standard ceiling applications up to 12 feet

- **SVPD**
  - Integrated Sensor System
  - Adjustable occupancy sensing and daylight dimming control
  - Out-of-the-box functionality with no configuration required
  - Optional handheld remote for field adjustments and personal control
  - Low-bay and high-bay detection pattern options for various ceiling heights up to 30 feet

- **LumaWatt Pro**
  - Wireless Connected Lighting System powered by Enlighted
  - Configurable dimming, occupancy, light, temperature and power use sensing
  - Enterprise-class wireless networking with fully addressable settings
  - Powerful software for energy management and Internet of Things (IoT) data capture and analytics
  - Low bay detection pattern covers low- and high-ceiling applications up to 20 feet
