Rapid Response

COOPER Lighting Solutions
Count on Rapid Response from Cooper Lighting Solutions to offer the most popular Industrial and Commercial lighting products with customizable options delivered to you when you need them. Combining easy to order modifications and quick turn service, Rapid Response enables fast product delivery so projects are completed even sooner.

**Get products you need, when you need them**

**Made-to-Order**
- Customize products
- Choose from stocked ambient products
- Range of options available

**Easy to Order**
- Simple ordering logic:
  - **RR** = East Region
  - **BRR** = West Region
- Maximum line item product (i.e. Cruze ST) quantity = 100 fixtures
- Can have 100 fixtures per product (i.e. 100 Cruze ST and 100 Encounter) on an order

**Quick Shipments**
- Orders ship in 5 days
- Order must be received by 12pm local time
- Quick turn service

**Guaranteed Performance**
- Backed by Cooper Lighting Solution’s warranty
- Standard shipping terms apply
- MTO Return policy
**Product Index**

Encounter LED Series

- Leverages our patented WaveStream™ Technology with AccuAim™ optics
- Advanced optical control with optimal illumination
- High performance efficacy up to 143 lumens per watt
- Over 60% energy savings when compared to fluorescent troffers
- Standard 0-10V continuous dimming driver
- L92 at 100,000 hours with 5-year warranty

CCT Options | Driver Type | Number of Drivers | Packaging

- L835=3500K | CD=0-10V Dimming Driver (Standard) | 1=1 Driver | [Blank]=Unit Pack
- L840=4000K | CD=0-10V Dimming Driver (Standard) | 1=1 Driver | [Blank]=Unit Pack

NOTES: (1) Chicago rated version does not allow for row mounting. (2) DesignLights Consortium™ Qualified and classified for DLC Standard (all lumen packages), refer to www.designlights.org for details. (3) With non-integral test switch/indicators/laser test. For approximate delivered lumens multiply the lumens per watt of the desired fixture by the wattage of the emergency battery pack (100 lm/W x 7=700 lumens). IES-format photometry for luminaires under emergency operation available. (4) Orders with MWS go directly to RapidResponse Centers and are not reviewed by MWS technical personnel. Compatibility of fixture MWS option and overall MWS system is the responsibility of the customer. Any issues are to be resolved with factory MWS technical prior to order entry. (5) For non-emergency luminaires, the second hot conductor is capped off (red). For emergency luminaires, the black MWS conductor is connected to the driver (black), the second hot (red) is connected to the emergency driver.
### SkyRidge LED Series

- Leverages our patented WaveStream™ Technology with AccuAim™ optics
- Advanced optical control with optimal illumination
- High performance efficacy up to 146 lumens per watt
- Over 60% energy savings when compared to fluorescent troffers
- Standard 0-10V continuous dimming driver
- L92 at 100,000 hours with 5-year warranty

### Options

- **Emergency**
  - EL7W=7-watt, 120V-277V emergency battery pack installed
  - EL14W=14-watt 120V-277V emergency battery pack installed

- **Flex**
  - A3/8-4/18G DIM=3/8” cable, 2-wire, ground, dimming leads
  - A3/8-5/18G DIM=3/8” cable, 3-wire, ground, dimming leads

- **MWS**
  - MW12DC12/2G11=120V drop cable, 12/2, 11’ length
  - MW12DC12/3G11=120V drop cable, 12/3, 11’ length
  - MW27DC12/2G11=277V drop cable, 12/2, 11’ length
  - MW27DC12/3G11=277V drop cable, 12/3, 11’ length
  - MW12FF12/3G=120V fixture feed, #12, 3 conductors plus ground
  - MW27FF12/3G=277V fixture feed, #12, 3 conductors plus ground

### Notes

1. Chicago rated version does not allow for row mounting.
2. DesignLights Consortium™ Qualified and classified for DLC Standard (all lumen packages), refer to www.designlights.org for details.
3. Fixtures using factory installed SkyTrim option do not meet DLC Qualifications.
4. Flex requires two-wire (18G) dimming leads.
5. IES format photometry for luminaires under emergency operation available.
6. Orders with MWS go directly to RapidResponse Centers and are not reviewed by MWS technical personnel. Compatibility of fixture MWS option and overall MWS system is the responsibility of the customer. Any issues are to be resolved with factory MWS technical prior to order entry.
7. For non-emergency luminaires, the second hot conductor is capped off (red). For emergency luminaires, the black MWS conductor is connected to the driver (black), the second hot (red) is connected to the emergency driver.
Cruze ST Series
- Advanced optical control married with contemporary styling
- High performance efficacy greater than 135 lumens per watt
- Standard 0-10V continuous dimming driver
- Shallow depth housing (3.25")
- Latchless design and matte white architectural paint for clean look
- cULus damp location / IC Rated / RoHS compliant / DLC Qualified

  - MW27FF12/3G=277V fixture feed, #12, 3 conductors plus ground (1)

NOTES:
1. With integral test switch/indicator/fixture test. For approximate delivered lumens multiply the lumens per watt of the desired fixture by the wattage of the emergency battery pack (100 lm/W x 7=700 lumens). IES-format photometry for luminaire under emergency operation available.
2. Consult WaveLinx system for additional details and compatibility.
3. Consult SVPD system pages for additional details and compatibility.
4. Orders with MWS go directly to RapidResponse Centers and are not reviewed by MWS technical personnel. Compatibility of fixture MWS option and overall MWS system is the responsibility of the customer. Any issues are to be resolved with factory MWS technical prior to order entry.
5. For non-emergency luminaires, the second hot conductor is capped off (red). For emergency luminaires, the black MWS conductor is connected to the driver (black), the accent hot (red) is connected to the emergency driver.
RLN Series

- Luminous center panel with gently elevated luminous side panels for a visually pleasing appearance
- High efficacy up to 139 lumens per watt
- Available in 2’ x 2’ and 2’ x 4’, two lumen packages per size
- Adds a distinct decorative element to any space

**NOTES:**
1. With integral test switch/indicator/fault test. For approximate delivered lumens multiply the lumens per watt of the desired fixture by the wattage of the emergency battery pack (100 lm/W x 7=700 lumens). IES-format photometry for luminaire under emergency operation available.
2. Orders with MWS go directly to RapidResponse Centers and are not reviewed by MWS technical personnel. Compatibility of fixture MWS option and overall MWS system is the responsibility of the customer. Any issues are to be resolved with factory MWS technical prior to order entry.
3. For non-emergency luminaires, the second hot conductor is capped off (red).
GRLED Series

- Energy savings options versus traditional fluorescent troffers
- Correlated Color Temperatures 3500K and 4000K
- Multiple lumen packages for each configuration
- Electronic driver with standard 0-10V dimming
- Typical CRI 85
- Lumen maintenance of L70 at 60,000 hours
- DLC qualified
- Five-year warranty

NOTES:
1. An EQ Grid Clip is recommended for all 4’ x 4’ ceilings systems.
2. Nominal lumen output.
4. With integral test switch/indicator/laser test. For approximate delivered lumens multiply the lumens per watt of the desired fixture by the wattage of the emergency battery pack (100 lm/W x 7=700 lumens). ESD format photometry for luminaires under emergency operation available. (4) Orders with MWS go directly to RapidResponse Centers and are not reviewed by MW Solutions Technical personnel. Compatibility of fixture MWS option and overall MWS system is the responsibility of the customer. Any issues are to be resolved with factory MWS technical prior to order entry.
5. For non-emergency luminaires, the second hot conductor is capped off (red). For emergency luminaires, the black MWS conductor is connected to the driver (black), the second hot (red) is connected to the emergency driver.
## VHB LED High Bay Series

- Compact, lightweight design for ease of installation
- High Impact Polycarbonate optical lens
- 3 lumen packages available (12,000, 18,000 and 24,000)
- High-Performance efficacy up to 133 lm/W
- Occupancy and daylight sensor for added savings
- Lumen Maintenance – L82 @ 60,000 hours
- Precision optics wide distribution
- 0-10V Dimming driver standard
- Up to 65% energy savings

### Notes:
1. Voltage must be specified when ordering accessory cord and plug.
2. Fixture cannot be surfaced mounted and must be a minimum of 18 inches below ceiling surface.
3. Single point mounting requires counterbalance weight which is included in the VHB-SPM kit.
4. EL20REM requires remote mount only.
5. Wireguard option is sold installable only.
6. When ordering MS, or SVPD3 option, specify as UNV (for 120 or 277V) (7) Requires use of MC or MPC cord accessories.
7. Rigid mount not for use in gymnasiums.
8. The accessory loop hanger shall be utilized only as a secondary safety and not the primary means of mounting.
10. Must be used in conjunction with VHB-SPM accessory for proper attachment to fixture.
11. When ordering MS, or SVPD3 option, specify as UNV (for 120 or 277V) (7) Requires use of MC or MPC cord accessories.
12. Rigid mount not for use in gymnasiums.
13. The accessory loop hanger shall be utilized only as a secondary safety and not the primary means of mounting.
15. Must be used in conjunction with VHB-SPM accessory for proper attachment to fixture.
16. When ordering MS, or SVPD3 option, specify as UNV (for 120 or 277V) (7) Requires use of MC or MPC cord accessories.
17. Rigid mount not for use in gymnasiums.
18. The accessory loop hanger shall be utilized only as a secondary safety and not the primary means of mounting.
**LHB LED Series**

- 13” width, 2’ and 4’ lengths
- 13” x 24” for 12,000, 18,000, and 24,000 lumen fixtures; 13” x 48” for 36,000 lumen fixture
- Diffused lens (standard) for protection and glare control
- Efficacy up to 143 lumens/watt
- Optional door frames and lens options
- 12,000, 18,000, 24,000, and 36,000 lumen packages

Includes (2) V Hangers and (2) 18” pieces of chain for rapid installation

- EL7W = 7-watt, 120V-277V emergency battery pack installed (1)
- EL14W = 14-watt 120V-277V emergency battery pack installed (1)

- LB-ERM5360 = 360° Low Bay Motion Sensor - End of Row (1)
- HB-ERM360 = 360° High Bay Motion Sensor - End of Row (1)

- CCT/CRI
  - LB35=3500K, 80 CRI
  - LB40=4000K, 80 CRI

Driver Type

- CD=0-10V Dimming Driver (10% - 100% Dimming)
- EL7W = 7-watt, 120V-277V emergency battery pack installed (1)
- EL14W = 14-watt 120V-277V emergency battery pack installed (1)

- LB-ERM5360 = 360° Low Bay Motion Sensor - End of Row (1)
- HB-ERM360 = 360° High Bay Motion Sensor - End of Row (1)

- CCT/CRI
  - LB35=3500K, 80 CRI
  - LB40=4000K, 80 CRI

NOTE: (1) 4 ft. and 8 ft. only. (2) With integral test switch/indicator/lastrack test. For approximate delivered lumens multiply the lumens per watt of the desired fixture by the wattage of the emergency battery pack (100 lm/W x 7=700 lumens). IES-format photometry for luminaire under emergency operation available. (3) Sensors provided in a separate externally mounted enclosure. See SRL spec sheet for fully integrated/connected sensors.
