Installation Instructions – Define Grid S122-125

WARNING
RISK OF ELECTRIC SHOCK—Disconnect power at fuse or circuit breaker before installing or servicing.

WARNING
Risk of fire/electric shock. If not qualified, consult an electrician.

WARNING
Risk of fire or electric shock. Luminaire’s wiring, ballasts, or other electrical parts may be damaged when drilling for installation of reflector kit hardware. Check for enclosed wiring and components.

WARNING
The weight of the luminaire (ONLY) not to exceed 40 lbs.

NOTE: This product must be installed in accordance with the applicable installation code by a certified electrician familiar with the construction and operation of the product and hazards involved.

NOTE: Only those open holes indicated in the photographs and/or drawings may be made or altered as a result of kit installation. Do not leave any other open holes in an enclosure of wiring or electrical components.

NOTE: To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or any sharp objects.

NOTE: Disconnect all power before proceeding.
Define Series (122, 123, 124, 125)
Individual and Continuous Luminaires
For Installation in Grid Ceilings

Warning: Before starting any work, ensure that all power sources are turned off. All work must meet local/national electrical codes and be preformed by a certified electrician.

Parts List
- Fixture
- Grid Bracket/Joiner (pre-installed in fixture)
- Access Plate (pre-installed in remote enclosure)
- Support Wire (by others)
- Shielded Cable (by others)
- Push-in Quick Connect
- Alignment Pins (pre-installed in fixture) (Continuous runs only)
- #8-32 2-1/2” Bolts and Nuts (Continuous runs only)
- 9/64” Allen Wrench (by others)
- 11/32” Flexible Nut Driver (by others)

Cross Section and Grid Spacing Details

Install fixture housing into Grid. Ensure Grid brackets secure over grid. Remove access plate.

Connect shielded cable to access plate. Connect electrical wiring as required using provided push-in connector. Reattach access plate.

Secure fixture at both ends using support wire. **OPTIONAL STEP:**
Secure fixture to grid using #8 screws through grid bracket.
Required for seismic installations.

FOR CONTINUOUS RUNS: Connect through wiring using the provided push in connectors. Tuck wiring into fixture and push together ensuring alignment pins are properly connected. Secure run using #8-32 bolts and nuts on each side of fixture through grid brackets.

FOR CONTINUOUS RUNS: Secure next fixture in row using support wires on both sides of fixture. **OPTIONAL STEP:** Secure fixture to grid using #8 screws through grid bracket. Required for seismic installations.
