Celesteon
LED high mast luminaire
The Celesteon LED high mast luminaire combines high output and efficiency with easy install and affordability. Designed for new and retrofit high-lumen applications, the Celesteon LED high mast is ideal for highways, interchanges, ports, rail yards, container yards, parking lots, correctional facilities, security lighting, treatment plants and other facilities in need of high lumen packages with accurate optical control.

**Key features and benefits**

- 40 lumen packages with an industry leading output of 103,500 lumens and maximum efficacy of 167 lm/W.
- A choice of seven high efficiency optics available in Type I, II, III, IV, V, Type V narrow and round, precisely designed to shape the distribution, maximizing efficiency and application spacing.
- 345° field-rotatable optical assembly. For the ultimate level of spill light control, an optional house side shield accessory is available and can be field or factory installed.
- Greater than 86 percent lumen maintenance at 100,000 hours.
- Durable mechanical design with IP66 optics and housing, 3G vibration rating, 4-bolt mounting.
- Robust surge protection options with 10kV or 20kV rating.
- Optional proprietary coating and stainless hardware for coastal area construction, meeting or exceeding ISO 12994 C4 classification.

#### Additional information

- Warranty: 5 year
- Vibration tested: 3G
- UL/cUL Listed: Wet location
- IP66 rated: Yes, Optics (Housing optional)
- ISO 9001: Certified
- RoHS: Compliant
- Approximate net weight: Up to 65 lbs. (29.48 kgs.)

#### Effective projected area (EPA) square feet

- Short extrusion: 1.13 - 3.57
- Long extrusion: 1.25 - 3.62
