McGraw-Edison, Lumark, Streetworks, and Invue outdoor fixture housings are finished in super durable TGIC polyester powder coat paint, 2.5 mil nominal thickness for superior protection against fade and wear. RAL and custom color matches available.

Colors and textures have been matched as close as possible. (*Review back of booklet for additional details)
Colors and textures have been matched as close as possible. Paper and ink limitations, as well as the influence of heat and light, account for differences from actual coatings. To aid in final product selection, please contact your local product representative.

Colors and availability subject to change without notice.
