## White Reflector Collection - By Halo

### White Recessed Reflectors

White Recessed reflectors provide a clean ceiling appearance as they visually recede into the background. The white trim rings and reflectors blend easily with most ceilings.

Halo's collection of white reflectors include aperture sizes of 3", 4", 5" and 6". Both low voltage and line voltage trim styles are offered in this collection and lamp types and sizes range from compact MR16 accents to general illumination reflector lamps.
