Note: Refer to halolgt.com for Halo Track finishes - P, AH, SL & MB.

## TECHNICAL DETAILS

### fabriqué Pendants

#### SLOPED CEILING ADAPTOR (SCA)

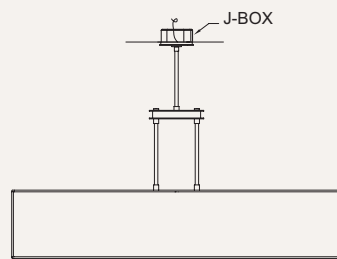

Sloped Ceiling Adaptors are designed to be used for ceilings that slope more than 25°. The adaptors can be used with single stems or 1SAC with a sloped ceiling of up to 45°. The 101 requires a unique SCA design that is application based; refer to the specification sheet for drawings and additional information.

101-SLOPED CEILING ADAPTOR

#### COLLECTOR BODY (CB)

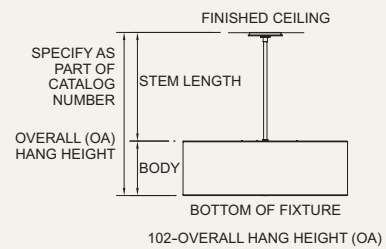

The Collector Body option is used for the 101 pendant with an overall suspension of 60" or more. The collector body transitions from the Double Stem (2S) to a single stem for extended hang heights.

COLLECTOR BODY (CB)

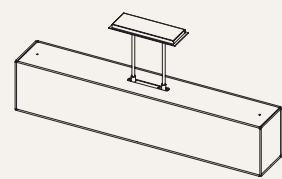

#### OVERALL HANG HEIGHT (OA)

Overall Hang Height measures from the ceiling to the lowest point of the fixture. Our standard overall hang height for most pendants is 24" (OA). Do not specify the stem length. Refer to the fixture specification pages for details.

#### TOP COVER OPTION (TC)

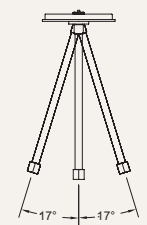

Pendants can be specified with a Top Cover option in matte white acrylic. Refer to the specification sheets on [shaperlighting.com](http://shaperlighting.com) for details and additional drawings.

TOP COVER OPTION (TC)

#### PENDANT CANOPIES

All of our single stem pendant luminaires are provided standard with one of two different swivel mechanisms. The Self-Aligning Swivel offers up to 15° (total) adjustment. The Swivel Canopy offers up to 30° (total) adjustment.

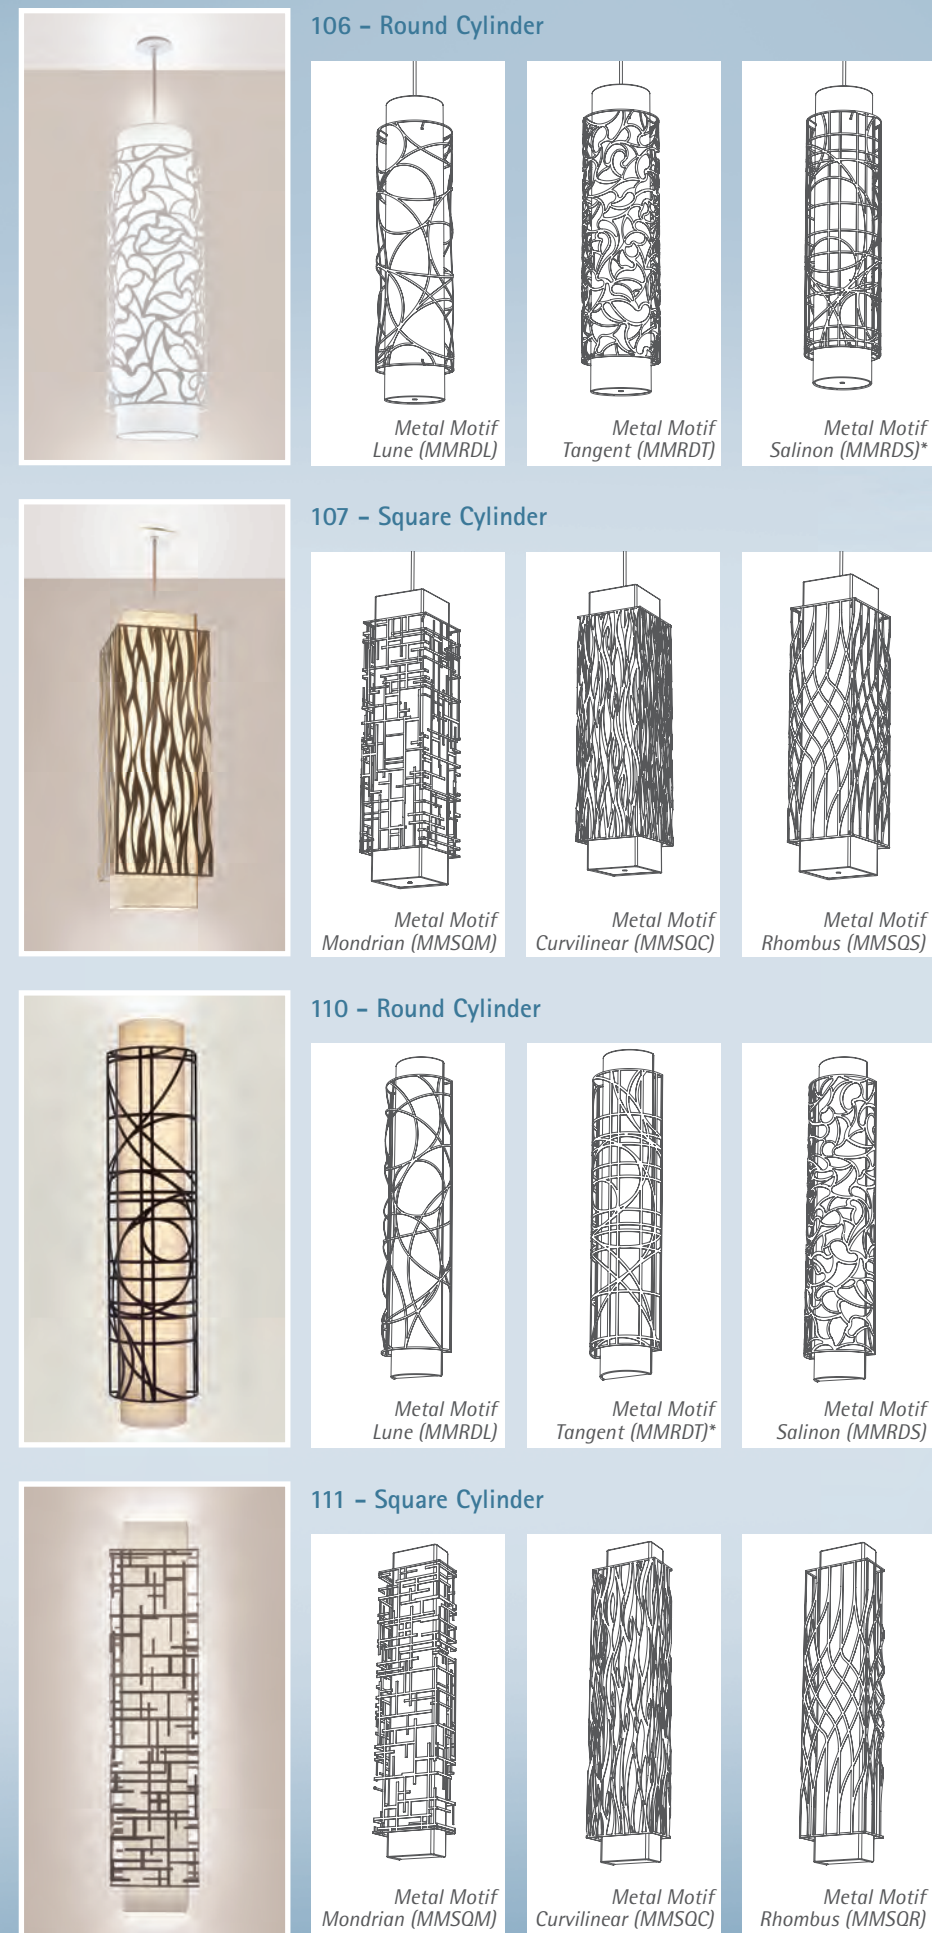

Self Aligning Swivel

Note: Refer to page 521 in the Shaper Architectural Catalog for Emergency Battery Pack - IEM & REM technical information and ordering details. Refer to [shaperlighting.com](http://shaperlighting.com) icon legend for descriptions the icons used throughout this catalog.

# METAL MOTIF GUIDE

Patent Pending

Shaper's new family of Metal Motif's and Panels feature eight Patent Pending designs; four each for the Round and Square Cylinders in all sizes. The unique designs have a hardware free mechanical attachment and are laser cut. They are available in a wide variety of standard finishes as well as custom color to coordinate with a fabric of your choice! Contact the factory to create your own design or logo for project specific applications.

### 106 Metal Panels

### 107 Metal Panels

\* Tangent also available with the 107 and 111 Series.

# MATERIAL FINISH GUIDE – STANDARD

## Solid Fabrics

**Silk White (SIW)**  
Genuine silk, fine weave, delicate texture, with no "slubs"  
Width: 54"

**Silk Ivory (SIY)**  
Genuine silk, fine weave, delicate texture, with no "slubs"  
Width: 54"

**Linen Alabaster (LAT)**  
Elegant, small weave, no "slubs"  
Width: 48"

**Linen Biscuit (LBS)**  
Smooth weave, handkerchief linen  
Width: 48"

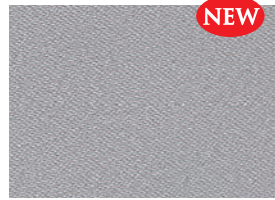

**Shantung White (SWH)**  
Delicate linear weave with random "slubs"  
Width: 48"

**Shantung Eggshell (SEG)**  
Delicate linear weave with random "slubs"  
Width: 54"

**Shantung Beige (SBG)**  
Delicate linear weave with random "slubs"  
Width: 54"

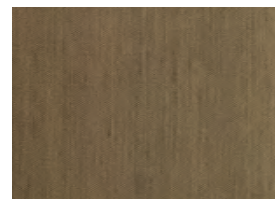

**Aluminium Shimmer (AMS)**  
Light silver with a slight metallic sheen  
Width: 54"

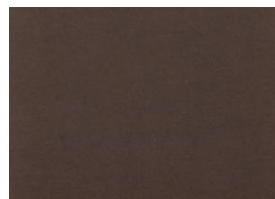

**Heather Grey (HTG)**  
Medium grey with a slight metallic sheen  
Width: 54"

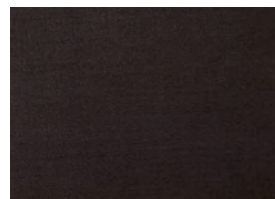

**Nutmeg Shimmer (NGS)**  
"Silk-like," subtle iridescent sheen and deeply colored  
Width: 54"

**Bronze Shimmer (BZS)**  
"Silk-like," subtle iridescent sheen and deeply colored  
Width: 54"

**Chintz Chocolate (CCT)**  
Small weave without "slubs"  
Width: 54"

**Chintz Onyx (CXH)**  
Small weave without "slubs"  
Width: 54"

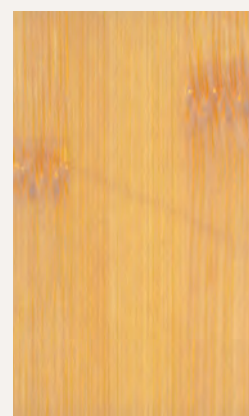

## Close-Ups NEW

**Casual "Box" Pleat (OBP)**  
Casually fluid box pleat, coupled with deliberate inconsistency of spacing and form creates interesting texture with varying depths of illumination. Adds subtle character to simple shapes.

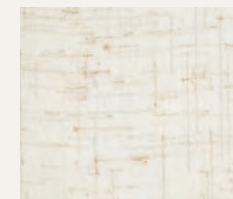

**European "Mushroom" Pleat (EMP)**  
Beautifully "stirred," tight pleat fabric that creates texture and depth. "Soft-back" white stretch lining underneath the specified fabric.

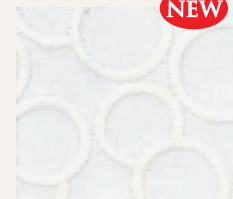

**FSC Bamboo Veneers\*\***  
Beautiful, unique flat grain veneer with irregular graining and "knots." Made from 100% rapidly renewable bamboo. A no VOC water based protective top coating is applied to the shade surface. Trimless, sanded edge.

Note: Natural materials and textiles are subject to inconsistency in color/pattern, texture, shape and may vary from dye lots. They may also change appearance over time. Standard Metal and Material Finish Guides are graphic representations of the actual colors. Colors will differ between the monitor settings and variations may occur between the actual color and the images shown. Many materials appear differently when illuminated. As an example, the wood appears to be more amber when illuminated. It is recommended to view all samples illuminated prior to making a final selection. Please contact your representative for a color sample chip.

## Patterned Fabrics

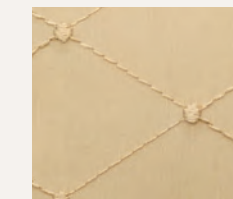

**Glasgow Flax (GFX)**  
Off-white, tight weave background with a random beige horizontal/vertical pattern  
Width: 48"

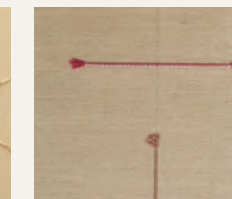

**White Corona (WCA)**  
White translucent background with raised, random, white embroidered circles  
Width: 54"

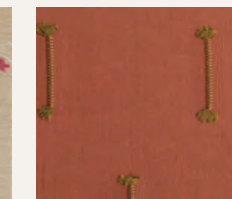

**Sandstone (SDE)**  
Medium beige background with small, raised, random, light beige embroidered "nibs"  
Width: 54"

**Apex (APX)**  
Formal tight weave, slight sheen with raised stitched "X" pattern  
Width: 54"

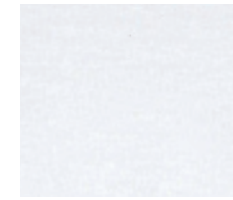

**Criss-Cross (CCS)**  
Milk chocolate slightly textured tight weave with chocolate and wine colored raised diagonal decorative bars  
Width: 54"

**Cinnamon Stick (CNK)**  
Cinnamon & olive tight weave, slight sheen with raised decorative bars  
Width: 54"

## Shade-in-a-Shade Organza Fabrics

**White Mist (WMT)\***  
Slight metallic weave, silver sheer organza on clear vinyl  
Width: 42"

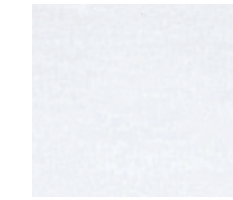

**Silver Moon (SMO)\***  
Slight metallic weave, white sheer organza on clear vinyl  
Width: 42"

**Earth Dust (EDT)\***  
Slight metallic weave, bronze sheer organza on clear vinyl  
Width: 42"

## Metal Panel Resin Inserts NEW

**White Mist (WMTR)**  
White weave, resin  
5' x 8' Sheet

**Silver Moon (SMOR)**  
Silver weave, resin  
4' x 8' Sheet

**Earth Dust (EDTR)**  
Bronze weave, resin  
4' x 8' Sheet

## Coated Fabrics NEW
