SURE-LITES

CEL Series
Concealed Emergency Light

Architecturally pleasing Emergency Light... visible only when you need it

CEL Series
Concealed Emergency Light

COOPER Lighting
For applications where the finest architectural appearance is required, the Concealed Emergency Light (CEL) Series offers the maximum protection of high quality MR16 lamps to light your path when you need it, but also the minimal intrusion on your environment when you don’t. The CEL is fully recessed in your wall or ceiling and is almost invisible when not in use, demonstrating the perfect balance of form and function. The doors open automatically when power is lost, lighting your path of egress with up to 150 feet of spacing, and then automatically return to the closed position when power is restored.

Sure-Lites Concealed Emergency Light -
The Ultimate in Architectural Emergency Lighting Design

- Specification grade durable off-white textured powder finish, which can be field painted or wall papered to match any color or surface
- MR16 halogen lamps available up to 75 watts each, with four lamp positions available to help ensure optimal lighting distribution
- Dependable batteries with extended run times or remote capacity available, UL rated up to 120 minutes
- Standard features include self-test and self-diagnostics
- Can be mounted in wall or ceiling, suitable for heights up to 50 feet or can light a path of egress up to 150 feet
