Subject: S505H Series of 400Vdc/500-600Vac Fuses Launch Announcement

Cooper Bussmann announces the launch of the S505H Series of time-delay 5 x 20mm ceramic tube fuses.

Available as ferrule or with optional axial leads, the S505H Series provides higher voltage ratings and breaking capacities than standard IEC 60127-2 fuses.

Key features include:

- Time-delay, high breaking capacity
- 5 x 20mm physical size
- Ceramic tube with plated end cap construction
- Designed to IEC 60127-2, Standard, Sheet 5
- RoHS Compliant, lead free and halogen free

Additionally, Cooper Bussmann has available a variety of PCB fuse holders and clips.

Please share the availability of the new S505H Series with the appropriate personnel in your organization.

For more information, see Data Sheet # 4406.

Thank you for your business and your cooperation.
