## Power lock accessories for 30A & 60A

## Locking device dimensional data

## Specification information
The industry's most complete line of locking industrial devices

Arrow Hart offers the most rugged, feature-rich, broadest line of quality locking devices to meet the specific needs of demanding industrial applications.

**Locking devices**
The widest range of NEMA and non-NEMA devices, designed and built with superior materials for long lasting performance.

**50A locking devices**
Rugged pro grip, armored and marine grade 50A locking devices are ideal for harsh construction and industrial applications.

**Power lock devices**
Power lock devices offer a positive engagement single-post design in rugged nylon or armored shell housings for reliable service.

**Flat cable devices**
Flat cable plugs & connectors are designed specifically for 4-pole, 5-wire flat cable applications in convention and exhibit halls or other high-traffic flat-cable environments.

See Section D for a complete line of watertight, severe-duty and corrosion resistant locking devices.
Industrial grade locking plugs and connectors

Rugged, quality locking devices for any application

Superior design and performance make Arrow Hart’s hart lock devices the ideal choice for industrial applications. Available in a wide range of NEMA and Non-NEMA configurations

Ultra grip straight blade plugs & connectors redesign features & benefits

Tri-combo screws

Reversible inserts allow for minimal gap and consistent look and grip regardless of cable size

Grommet helps prevent debris from entering wire terminal chamber

 Longer bosses on cord grip allow for excellent clamp force on large diameter cords

Large cord range* (Up to 1.16")

Tri-combo screws

Terminal body assembly screws backed out for fast wiring and assembly

Amperage/voltage & catalog number clearly marked

Double dovetail provides for superior cord grip alignment and retention

Oval & flared ergonomic design IP20 rating

Auto grip hospital and industrial grade plugs & connectors features & benefits

Smooth, tapered body reduces snagging and provides easy handling

Neoprene gasket seals around cord for added terminal protection from external elements

Rugged nylon body resists impact and exposure to chemicals

Back body

Front body

Single piece grounding contacts for superior continuity

Auto grip clamp design secures cord during assembly, reducing installation time

*Small body or 3-W devices

Compliances, specifications and availability are subject to change without notice.

www.eaton.com

www.eaton.com/arrowhart
Industrial receptacles features & benefits

- Performance feature: heavy duty glass reinforced nylon body and face for rugged durability
- Compact body design: allows for adequate wire room in wallbox
- Heavy interior walls: provide additional support to ensure contact retention
- Heavy-duty mounting strap: is double riveted to body for added strength
- One piece brass contacts: provide excellent plug retention and electrical continuity with minimum heat rise
- Amperage/voltage is clearly marked
- Serrated terminal plates: bite wire to insure strong, reliable wiring connections
- Back and side wired terminal design: allows for fast installation
- Multiple-head screws: provide versatility for ease of use

Industrial flanged inlets & outlets features & benefits

- Mounting holes: interchangeable with other devices
- Heavy-duty nylon construction
- Individual wiring compartments: with tapered channel for easy insertion of wires
- Back wire terminal clamps: for easy, secure wiring

Compliances, specifications and availability are subject to change without notice.

Locking devices

Innovative design & rugged durability

Arrow Hart’s unique pro grip design allows for quick and easy termination and assembly, saving valuable time on the job site. Superior design combined with rugged materials make Arrow Hart 50A devices ideal for temporary power applications.

Pro grip 50A plugs & connectors features & benefits

- High-impact-resistant nylon housing can endure the roughest abuse while providing added insulation, resistance to breakage and superior heat performance
- Matte finish ribbed housing surface provides improved gripping and handling in any environment
- Cold rolled plated steel plug shroud adds strength and resists corrosion
- Glass-filled nylon body for resistance to breakage and superior heat performance
- Deep tapered wire wells are clearly marked for easy insertion and isolation of up to #4 AWG solid or stranded wires
- Tri-combo assembly screws are stainless steel construction for corrosion resistance
- Performance feature pro grip lock provides visual confirmation that the device is assembled properly; 3-step assembly is fastest and easiest in the industry

Compliances, specifications and availability are subject to change without notice.
Locking devices

Exceptional receptacles & inlets
Innovative design, rugged materials and superior construction deliver lasting performance and reliable service in harsh industrial environments

50A receptacles features & benefits

- Heavy gauge 0.078" steel shells
- Rugged glass-filled nylon construction stands up to the toughest environments
- Rugged single piece heavy-duty plated mounting strap for corrosion resistance; marine grade models are nickel plated
- One-piece contacts provide continuity in the grounding and power circuits: brass alloy (shown), or nickel plated brass (marine grade versions)
- Heavy interior walls for additional support
- Large terminal box lugs for secure wiring

50A flanged inlets features & benefits

- Rugged metal shells and housings consist of corrosion resistant plated steel
- Back wired for quick and dependable conductor termination
- Deep, tapered wire wells for positive conductor insulation

Compliances, specifications and availability are subject to change without notice.

Power lock devices

For applications where the need for a secure connection is absolute

Power lock devices are designed for safety, energizing within a chamber to eliminate the possibility of exterior arcing. They are ideal for high-abuse industrial and specialized hospital applications.

Nylon power lock plugs & connectors features & benefits

- High-impact nylon shell ideal for use in high abuse installations
- Neoprene gasket seals cord entry hole and prevents dust and moisture from entering terminal area
- Tapered cord grip cover prevents cord snagging
- Carefully machined contacts of high alloy brass molded into high impact resistant fiberglass reinforced nylon
- Totally insulated design eliminates exposed metal parts
- Unique twist type cover eliminates assembly screws
- Innovative cord clamping fingers provide exceptional cord retention
- Neoprene grommet protects against contamination
- Adjustable external metal cord grip accepts a wide range of cord diameters
- Spring loaded safety shutter ejects the plug if not fully locked in and prevents entrance of foreign matter
- Large pressure plate terminals for ease of wiring
- Rugged steel shell for maximum protection

Compliances, specifications and availability are subject to change without notice.

- L2-20 cUL Listed to C22.2, no. 42, file no. E3663
- L2-20 NOM certified

#### Environmental specifications
- Flammability: Meets UL94 requirements, V2 rated
- Temperature rating: -40ºC to 60ºC (-40ºF to 140ºF), except flat cable: -40ºC to 75ºC (-40ºF to 167ºF)
- Dielectric voltage: Twice the device rating + 1000V per UL498
- Current interrupting: Yes, at full-rated current
- Temperature rise: Max. 30ºC (86ºF) after 200 cycles of overload, except flat cable: 50 cycles of overload at 150% of rated current (DC)
- Flammability: Meets UL94 requirements, V2 rated
- Temperature rating: -40ºC to 60ºC (-40ºF to 140ºF)
- Dielectric voltage: Twice the device rating + 1000V per UL498
- Current interrupting: Yes, at full-rated current
- Temperature rise: Max. 30ºC (86ºF) after 200 cycles of overload

#### Electrical specifications
- Terminal accommodation: #16 - #8 AWG, except isolated ground & flat cable: #14 - #8 AWG
- Voltage ratings: Permanently marked on device
- Terminal accommodation: #16 - #12 AWG
- Voltage ratings: Permanently marked on device

#### Mechanical specifications
- Outer shell: Nylon
- Interior body: Nylon
- Terminal retainer: Polycarbonate
- Blades: Brass
- Line contacts: Brass
- Terminal clamps: Steel, zinc plated
- Terminal screws: #10-32 brass, neutral screw nickel plated
- Ground screw: #10-32 brass, green
- Assembly screws: Steel, zinc plated
- Gasket/dust shield: Neoprene
- Cord clamp screws: Steel, zinc plated
- Cord clamp: Nylon, except flat cable: glass-filled nylon
- Outer shell: Nylon, except L1-15: phenolic
- Interior body: Nylon, except L1-15: phenolic
- Terminal retainer: N/A
- Blades: Brass
- Line contacts: Connectors: zinc plated
- Terminal clamps: Steel, zinc plated
- Terminal screws: Brass
