

Patrol™ Dimmable Combination Wallbox Nightlights

Find your way safely

 **COOPER** Wiring Devices

Patrol™ Dimmable Combination Wallbox Nightlights

Innovative Upgrade

The only combination nightlight on the market that allows you to set the light level

FEATURES

- **Safety:** Provides added safety by improving way-finding in the dark

- **Dimmable:** Press and hold to lower or raise the light level to desired intensity. This is beneficial for places like bedrooms where you want the way-finding benefit of the nightlight but do not want to disrupt sleep with an overly bright light.

- **Automated:** Light sensor automatically turns the nightlight ON when it becomes dark and automatically OFF when the room has light.

- **Advanced Control:** Can be wired in series and controlled by a switch for applications such as a hallway or stairway.

- **Way-Finding:** Meets the needs of a growing senior population by providing improved and safer home navigation.
